

Solar Savers and COVID-19 Update

Updated 27/05/2021

Based on the “Seven day lockdown” which begins 11:59PM Thursday 27 February 2021, the restrictions mean that residential solar installations and pre-inspections will **remain prohibited until at least Thursday 4 June, 2021**. Critical repairs can be made where required in an emergency or for safety reasons.

In the meantime, you can still register for Solar Savers, schedule a phone consultation with our installers, and receive a quote. There may be slightly longer than usual wait times for a pre-inspection or installation date, due to delays during this period.

For those who already have an installation date booked during this period, or have paid a deposit and are waiting for an installation date, you will be contacted by eko energy who will schedule/reschedule your booking.

To familiarise yourself with restrictions and for updates, please visit www.coronavirus.vic.gov.au

If you have any queries or concerns regarding the safety procedure in place by Solar Savers and our installers, or you would like to put your registration on hold, please contact us on 1300 548 598, or email info@solarsavers.org.au

Solar Savers is committed to ensuring the health and wellbeing of our customers, staff and installers by taking all measures necessary to reduce coronavirus infection in our communities.

Until further notice, all face-to-face information sessions and events have been indefinitely cancelled and all work is conducted remotely. Please note we are still available from Monday - Thursday via email or phone to answer any questions or concerns you may have.
