

HOSPITALITY (RESTAURANTS, PUBS AND CAFES)

TOP PROGRAM ENERGY UPGRADES:

<p>Heat pump HWS</p>	<p>\$2,000 - \$1,700 = \$300</p> <p>Avg. install cost Price discount Net install cost</p>	<p>\$2,745 SAVING</p> <p>potential over 5 years</p>	<p>Paid off in*:</p> <p>6 months</p>	<p>18 tCO2e*</p> <p>Ghg savings over 10 years</p>	6 CARS OFF THE ROAD
<p>Room Air-conditioner</p>	<p>\$3,125 - \$2,425 = \$700</p> <p>Avg. install cost Price discount Net install cost</p>	<p>\$1,250 SAVING</p> <p>potential over 5 years</p>	<p>Paid off in*:</p> <p>2.8 years</p>	<p>8 tCO2e*</p> <p>Ghg savings over 10 years</p>	3 CARS OFF THE ROAD
<p>Two Door Refrigerator</p>	<p>\$1,200 - \$1,020 = \$180</p> <p>Avg. install cost Price discount Net install cost</p>	<p>\$85 SAVING</p> <p>potential over 5 years</p>	<p>Paid off in*:</p> <p>9 years</p>	<p>1 tCO2e*</p> <p>Ghg savings over 10 years</p>	0 CARS OFF THE ROAD
<p>Refrigerated Display Cabinet (1-2m² size)</p>	<p>\$4,945 - \$3,003 = \$1,942</p> <p>Avg. install cost Price discount Net install cost</p>	<p>\$4,410 SAVING</p> <p>potential over 5 years</p>	<p>Paid off in*:</p> <p>2.2 years</p>	<p>29 tCO2e*</p> <p>Ghg savings over 10 years</p>	10 CARS OFF THE ROAD
<p>Refrigeration and ventilation fan motors</p>	<p>\$1,000 - \$850 = \$150</p> <p>Avg. install cost Price discount Net install cost</p>	<p>\$2,500 SAVING</p> <p>potential over 5 years</p>	<p>Paid off in*:</p> <p>3 months</p>	<p>16 tCO2e*</p> <p>Ghg savings over 10 years</p>	5 CARS OFF THE ROAD

Disclaimer: Annual energy savings estimations are based on modelled energy savings and assumed retail energy rates. Actual savings will vary based on actual usage and retail rates and are indicative only. The 'Price discount' includes the VEECs discount and the program bonus. Where appliances are not decommissioned, savings figures are estimated based on the difference between a new appliance and Minimum Energy Performance Standards or market average data. The average installation prices are estimates only and may vary considerably depending on the equipment installed. Accredited Providers will be able to quote actual installation prices and overall price discount.

TOP SAVINGS TIPS:

- 1** Install timers and turn off appliance when not in use.
- 2** Upgrade and maintain refrigeration equipment.
- 3** Cook in bulk, freeze food and use a microwave to reheat.
- 4** Use an induction cooktop instead of gas.
- 5** Turn off fridges for drinks and non-perishables overnight.
- 6** Consider Solar PV under the Solar Victoria, Solar for Business program: www.solar.vic.gov.au/solar-small-business
